Dear Dr. Lederberg:

This is a follow-up on your offer to help Bob Lahita and me obtain some radioactive procainamide from Squibb.

I was unable to track back to the block in our previous attempt to obtain the material. Today, I telephoned a friend of mine currently at Squibb, Dr. Bruce Migdaloff, who said that they had radioactive procainamide and would send me some whenever I wanted it. I therefore expect that I can obtain it for Bob's experiments as soon as he is ready to use it.

Thanks so much for your offer of help.

Sincerely yours,

A handwritten signature in dark ink, appearing to read "Marcus M. Reidenberg".

Marcus M. Reidenberg, M.D.
Professor of Pharmacology and Medicine
Head, Division of Clinical Pharmacology
